

Welcome to AccessOAP!

At AccessOAP, we are building a new way for families to connect with autism services and supports across Ontario. We are here to help families with children on the autism spectrum:

- register for and navigate the Ontario Autism Program (OAP), and
- make informed choices about the services and supports available to them.

Is your family already accessing OAP services and supports?

The Government of Ontario will send you an email or letter asking you to create your account with AccessOAP. You must wait until you receive this letter or email before you can create your new AccessOAP account.

Once you create your account you can:

- see the full list of programs and services available to you;
- access your family OAP account information;
- get the support you need to make the right decisions for you and your family.

Create an account with AccessOAP as soon as you receive your letter or email from the ministry.

The information contained in your unique letter or email is needed to start the transition process.

Once you receive your transition letter or email from the Government of Ontario, you should create your account:
